Cyphers Incubator

It is too late in the year to get good results. When you come in to get the incubator, we will show you the complete Cyphers line, for you will likely want a Brooder or a Heater, and will also need some of the Chick Food and Water and Food Containers that are so useful.

We will be glad to send you a Cyphers Catalogue. It will interest you.

AUTO RACING AT HILO WAS GREATEST EVENT EVER HELD

ED LORD TOOK SPECTATORS' BREATH BY FEARLESS DRIVING OF HIS BIG CAR IN THE FOURTH EVENT, FINISHING THIRD MILE IN 4:56 1/4.

(Special Bulletin Correspondence.)
HILO, Feb. 24.—That the auto race which took place at Hilo last Wednesday afternoon was one of the most successful and interesting events ever held here was the unanimous verdict of all who attended. The success of the affair and the interest which it has awakened with the general public in auto racing should be a guarantee that Hilo will see more events of this kind.

The weather was perfect, and the meeting was well attended. There might have been a bit more promptness in starting the events, which would have finished the meeting in better time, but considering that this was the first event of the kind here, everything went off well. There were no quarrels and but very few kicks, and these were but from disgruntled contestants who had really no cause for complaint. The track was in fair condition, but at places the ruts and holes made the machines do some lively bumping, and the cars were prevented from making as good time as they would have been able to make on a perfectly even track.

First Event.
Motor cycles. Five laps. Prize, \$25.—L. P. C. Beamer; S. S. Meade; Tom Forbes did not finish.

Forbes took the lead from the very start and shot far ahead. His machine was adjusted to a nicely for speed, and he would without doubt have won the event, had he not blown out a tire near the end of the second lap. Forbes made the first lap in 2:12.2 seconds. Beamer took second place from the start and gained little by little until the fourth lap, when Meade began to creep up on him, but Beamer won by a comfortable margin. The time made by Beamer in the last four laps (Forbes' time and not Beamer's having been taken in the first) was as follows: Second lap, 1:45; third lap, 2:33; fourth lap, 3:27; fifth lap, 4:11.

After the race Meade claimed that Beamer had made only four laps, but this is utterly absurd.

Second Event.
Small cars. Owners and amateurs. Five laps.—Head L. D. S. Bowman and A. A. Wilson; head 2, J. Withers and E. F. Nichols; head 3, Weatherbee and R. W. Miller, who had been slated among the contestants, did not start. In the first heat between Bowman and Wilson, Bowman had the pole and got away with a good lead, but Wilson caught up sufficiently to make the event interesting. Towards the end of the fourth lap Wilson could almost touch Bowman's car, and when he was off the paddock gate it looked for a moment as if he might succeed in passing, but he could not do so, and Bowman finished comfortably. The time was as follows: First lap, 1:57; second lap, 2:31; third lap, 3:23; fourth lap, 3:49; fifth lap, 4:40.

The second heat, between Withers and Nichols, was uninteresting owing to the fact that the former's machine, a Ford of ancient model, started floundering before it had made more than a quarter of the first lap, and Nichols, on his second lap, passed Withers before he had made the paddock on his first. Withers quit, and Nichols finished the race by himself.

Third Event.
Match races, horse vs. auto. Prize, trophy. Half mile.—Horse (J. T.), O. B. Shipman; auto (Buick), A. Ruddle. Shipman got a good start, the auto making a standing start, but the noble animal was no match against the devil-wagon, and it was passed at the paddock gate, close to the finish. Time, 55:1-2 sec.

Fourth Event.
Large cars. Five laps. Prize, cup.—Buick, Dr. Fred Irwin; Stearns, Ed. Lord. A. Weeks, who had been slated for this race with his Olds, did not start.

Lord got the pole, and forged ahead from the start. He kept increasing his lead throughout the race, and finished half a length to the good. Lord's driving in this, as well as in the other events in which he participated, was one of the features of the meeting. Devoid of fear, apparently without nerves, and handling his massive car with a brute strength, backed by a thorough mastery acquired by long experience, Lord swung the powerful machine around the track, hugging the fence so the dust raised by his sliding hind wheels stood behind him like a cloud. Into the ruts it careened, rolling and pitching like a ship at sea, while Lord clung to the steering wheel and literally wrenched the ponderous car into its course by the strength of his hands. His time was as follows: First lap, 0:55; second lap, 1:34; third lap, 2:32; fourth lap, 3:18; fifth lap, 4:56 1/4.

TO CURE A COLD IN ONE DAY
Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box. PARIS MEDICINE CO., St. Louis, U. S. A.

Low was declared the winner by a good margin, the time being as follows:
Miss Low—First lap, 1:02; second lap, 1:53; third lap, 2:45; fourth lap, 3:40; fifth lap, 4:28 1/2.
Mrs. Dr. Collins—First lap, 1:51; second lap, 2:42; third lap, 3:34; fourth lap, 4:28; fifth lap, 5:12.

Extra Event.
Unfortunately, after the ladies' race had been run, a change was made that the Dr. Collins car had been tampered with in such a way as to facilitate the winner of the victory by Miss Low. At Ruddle immediately understood to prove the fallacy of the contention, and he did it by driving the Collins car to victory against the Bowman machine, driven by Bowman. Ruddle showed that the Buick was in excellent shape by defeating the Bowman car, which was the one with which Miss Low had defeated Mrs. Collins, in better time than that of Miss Low in the former race. The time made by Ruddle in the race with Bowman was as follows: First lap, 0:59; second lap, 1:49; third lap, 2:38 1/2; fourth lap, 3:28; fifth lap, 4:16.

Ninth Event.
Finals of Race 2. Five laps. Prize, speedometer.

The contestants were Bowman and Nichols, these being the winners of the two heats of Race 2. Nichols had the pole, but Bowman got the better start, which he developed into a nice lead. Nichols, however, crept up on him, and at the end of the second lap his fender was hanging on the flank of the Bowman car. Here Nichols fell behind a bit, but again he made up distance, and at the end of the third lap he was again his car out trying to pass Bowman. For a moment it looked as if he might be successful, but Bowman got his second wind, and at the end of the fourth lap he passed the stand a couple of lengths ahead. The time of the winner was as follows: First lap, 1:14; second lap, 2:18; third lap, 3:24 1/2; fourth lap, 4:32; fifth lap, 5:37 1/2.

Owing to the lack of time, the tenth event, a novelty race, wherein the contestants were to run their cars around barrels, had to be abandoned.

Eleventh Event.
Handicap race. Ten laps. Prize, \$50 or cup.

This race was open to the winners of the previous events, the handicap being made according to the time made in these. The handicaps were accordingly thus arranged: Bowman, 10 laps; Nichols, 9 laps; Lord, Stearns, 8 laps; Ruddle, Dr. Collins, Buick, 7 laps; and Flynn, Ford, 6 laps.

Bowman held on the lead which his handicap gave him, and the rest maintained the order of the start until the third lap, when Lord's car, Ruddle's and Flynn's passed the stand each about a half length ahead of its superior, making an exceedingly pretty and exciting situation. Out of the miles Flynn shot to the lead and his car continued to gain on Bowman's until in the seventh lap it overtook him right outside the grandstand. A bit later Ruddle also passed him, and Lord's car went out of commission. Bowman did not finish. Flynn won the race. The time was as follows: First lap, 1:00; second lap, 1:51 1/4; third lap, 2:42 1/2; fourth lap, 3:33; fifth lap, 4:24 1/2; sixth lap, 5:15 1/2; seventh lap, 6:08 1/4; eighth lap, 6:58; ninth lap, 7:45; tenth lap, 8:29 1/2.

The meet was such a success that Ruddle, who promoted it, is figuring on giving a similar event on the Fourth of July, though he expects to make it far more elaborate in order to attract some of the car owners from the other islands, as well as some of the general public outside of Hilo.

DOTS AND DASHES.

The Whittier at Kaula Club defeated the Blue last night at basketball by a score of 12 to 9. The lineup was: Whittier—Forwards, Diamond and Sam Hop; center, C. Brito; guards, H. Kuman and Monna. Blues—Forwards, V. Reyes and A. Naken; center, H. Kaula; guards, D. Nuu and J. Benito. Tullach refereed.

Portland is looking for Barney Joy and will try to arrange a release with Boston for this Honolulu player, so slow start, though both ladies showed much skill in handling the cars. Miss

Annual Haleiwa Road Race—
Starting from Aala Park.

TRACK ATHLETICS IN PREPARATION

Kam Boys Are Working Hard and Puns Getting In Good Shape.

At 4 o'clock this afternoon there will be a track meet at Kamehameha, when the men for prospective places on the track team to meet in the dual and other meets with the athletes of Oahu College and other institutions will be tried out.

The two teams are composed of the boys of the school who have aspirations for track and field honors, and the fellows have been equally divided into two teams, the reds and whites, so as to make the contest this afternoon as even as possible.

Kamehameha is taking a lot of interest in track and field athletics this year, and hopes to pull out the greater part of the points when the meet with Punahou comes off in the near future.

The events to be run off today include 100 and 220 hurdles, one mile run, broad jump, high jump and 440-yard run.

Out at Punahou the boys are working regularly on the track in preparation for the meets which are soon to be held, and every day the boys may be seen working out on Alexander Field in the track and field events, and getting in fine shape to do things when the meet with Kamehameha comes off.

BICYCLE RACES ON TOMORROW

Japanese Dealers Meet to Be Held at Athletic Park Track.

Tomorrow the annual races of the Japanese Bicycle Dealers' Association will be run off at Athletic Park on the new track, and it is likely that there will be some records made during the day.

The new track at the park has a sharp corner on the opposite side from the grandstand which will bother the riders some, and may be the cause of a number of spills during the heat of the racing.

When the races are called there will be lined up the best bike riders in Hawaii, and the large crowd which flows down to the park will see some great riding.

As the track is a six-lap one, the riders will be in good sight of the grandstand and bleachers all the time, which will add interest to the races.

There will be some cricket matches between local players and a team from the British cruiser Kent while the warship is in port. The first game is scheduled for this afternoon at Makiki grounds.

Wisdom may be gained from books, but real knowledge is gained from experience.

A Family Medicine Without Alcohol

Ayer's Sarsaparilla is a tonic and alternative, free from alcohol. What is a "tonic"? A medicine that imparts strength or tone; a medicine that builds up, gives vigor and power. What is an "alternative"? A medicine that alters or changes unhealthy action to healthy action. Ayer's Sarsaparilla does all this without stimulation. Ask your doctor if a family medicine, like Ayer's Sarsaparilla, is not vastly better without alcohol than with it.
